

More than 500 references

Industrial sites generally have in common complex architectural configurations, demanding environments (ATEX, dust, temperature...) and very specialized needs.

Due to hazardous materials, security solutions must both protect personnel and monitor assets.

This is why TIL TECHNOLOGIES has developed specialized functions, such as support to the Internal Operation Plan, and equipment, such as mobile readers. TIL TECHNOLOGIES can provide solutions for all industrial needs

TIL ALREADY EQUIPS

CHEMICAL

- ARCELORMITAL
- TOTAL PETROCHEMICALS
- SHELL
- MINES DE MADAGASCAR
- ELIOKEM - OMNOVA
- AIR LIQUIDE
- AREVA
- RHODIA
- POLIMERI EUROPA
- DIOR COSMETIQUES

MANUFACTURING

- ALSTOM
- DASSAULT AVIATION
- RENAULT AGRICULTURE - CLAAS
- VALEO
- CARBONE LORRAINE
- CONSTELLIUM
- TEFAL
- GEMALTO
- LEROY SOMER

FOOD PROCESSING

- HEINEKEN
- HARIBO
- ROYAL CANIN
- AMORA
- BEGHIN SAY
- BENEDICTA
- COCA COLA
- FROMAGERIES BEL
- GENERAL MILLS
- HAAGEN DAZS
- JEAN CABY
- LESAFFRE
- MADRANGE
- NESTLE
- SODEBO
- PAUL PAULET PETIT NAVIRE
- PERRIER JOUET
- PIPER & HEIDSIECK
- MUMM

INDUSTRIAL SITES SECURITY

AGILE SOLUTIONS
FOR EVERY SECTOR

MADE IN
FRANCE

TIL TECHNOLOGIES
ELECTRONIC SECURITY SYSTEMS

OPTIMIZE OPERATIONS

- **Single graphical interface** for access control, intrusion, video & technical alarms
- Archiving and **research of events**
- **Multi-site** and multi-operator management
- **Software gateways** to professional applications
- **Server redundancy**, offline mode....

MONITOR INDUSTRIAL EQUIPMENT

- **Alarm integration** of machines and equipment
- **Graphical monitoring** of power usage and temperature

ENSURE PEOPLE SAFETY

- **Professional Authorization Management** to allow access to hazardous areas and products
- **PLW (Protection of the lone worker)** equipment supervision to detect anomalies

CONTROLLING FLOWS

- **Visitors & external service providers :**
 - Pre-registration of appointments, sending QR-codes, reception on touch terminals, instructions & escort
- **Vehicle access** & traffic improvement through car plate recognition and long range badges

MONITOR SITE AND ITS SURROUNDINGS

- **Perimeter intrusion detection :**
 - Active gates, infrared barriers
- **Video surveillance**
- **Mobile control :**
 - Patrol assistance tool

MANAGING CRISES AND EVACUATIONS

- **Assistance to the P.O.I (Internal Operation Plan):**
 - Real-time registration in secured / unsecured areas and picture use
- Access restrictions according to authorization levels in case of a **crisis mode** outbreak

ADAPT ACCESS CONTROL TO ZONES AND POPULATIONS

- **Precise rights management** according to specific profiles, zones, time slots and validity dates
- **Access to critical areas** with biometric, lock, anti-passback or reinforced control (badge + code)
