

More than 500 equipped sites

Industrial sites generally have in common complex architectural configurations, demanding environments (ATEX, dust, temperature...) and very specialized needs.

Due to the dangers of the materials or technical equipment present, the security solutions put in place are intended both to protect personnel and to monitor assets.

This is why TIL TECHNOLOGIES has developed specialized functions, such as assistance with the Internal Operation Plan, and equipment, such as portable badge readers. Through its solutions, TIL TECHNOLOGIES can provide solutions for all industrial needs

TIL ALREADY EQUIPS

CHEMISTRY & RAW MATERIALS

- ARCELORMITAL
- TOTAL PETROCHEMICALS
- SHELL
- MINES DE MADAGASCAR
- ELIOKEM - OMNOVA
- AIR LIQUIDE
- AREVA
- RHODIA
- POLIMERI EUROPA
- DIOR COSMETIQUES

MECHANICS & ELECTRONICS

- ALSTOM
- DASSAULT AVIATION
- RENAULT AGRICULTURE - CLAAS
- VALEO
- CARBONE LORRAINE
- CONSTELLUM
- TEFAL
- GEMALTO
- LEROY SOMER

FOOD FACTORIES

- HEINEKEN
- HARIBO
- ROYAL CANIN
- AMORA
- BEGHIN SAY
- BENEDICTA
- COCA COLA
- FROMAGERIES BEL
- GENERAL MILLS
- HAAGEN DAZS
- JEAN CABY
- LESAFFRE
- MADRANGE
- NESTLE
- SODEBO
- PAUL PAULET PETIT NAVIRE
- PERRIER JOUET
- PIPER & HEIDSIECK
- MUMM

INDUSTRIAL & SEVESO-CLASSIFIED SITES SECURITY

ADAPTED SOLUTIONS
TO EVERY SECTOR

MADE IN
FRANCE

TIL TECHNOLOGIES
ELECTRONIC SECURITY SYSTEMS

OPTIMISE OPERATIONS

- **Single graphical interface** for access control, intrusion, video & technical alarms
- Archiving and **research of related events**
- **Multi-site** and multi-operator management
- **Software gateways** to professional applications
- **Server redundancy**, offline mode....

MONITOR INDUSTRIAL EQUIPMENT

- **Technical alarms** of machines and equipment
- **Graphical views** with consumption, temperature and curve monitoring

ENSURE THE SAFETY OF PEOPLE

- **Professional Authorisation Management** to determine access to hazardous areas and products
- **PTI (Protection of the lone worker)** equipment supervision to detect anomalies

CONTROLLING FLOWS

- **Visitors & external service providers :**
 - Pre-registration of appointments, sending QR-codes, reception on touch terminals, instructions & escort
- **Vehicle access** & traffic improvement through car plate readers and long range badges

MONITOR THE SITE AND ITS SURROUNDINGS

- **Perimeter intrusion detection :**
 - Active gates, infrared barriers
- **Video surveillance**
- **Mobile control :**
 - Round assistance tool and on-site patrolling assistance

MANAGING CRISES AND EVACUATIONS

- **Assistance to the P.O.I (Internal Operation Plan):**
 - Real-time registration in secured / unsecured areas and editing of trombinoscopes
- Access restrictions according to authorization levels in case of a **crises mode** outbreak

ADAPT THE ACCESS CONTROL TO ZONES AND POPULATIONS

- **Precise rights management** according to specific profiles, zones, time slots and validity dates
- **Access to sensitive areas** with biometric, lock, anti-reverse or reinforced control (badge + code)
